EDUCATION

University of South Florida, Tampa, FL | GPA 3.97

Bachelor of Science in Information Technology, Minor in Health Informatics

Graduating Spring 2028

EXPERIENCE

IT & Data Management Intern

May 2026 – August 2026

Help Us Grow Foundation

- Clean and validate organizational datasets to improve data accuracy and support reporting initiatives.
- Coordinate technical projects using **Monday.com**, collaborating with cross-functional teams to track progress and meet deadlines.
- Leverage AI tools to streamline documentation, generate educational content, and improve internal workflows.
- Support communication workflows using Avochato while maintaining accurate student records and progress reporting

Multimedia Production Assistant

January 2026 – Present

Housing and Residential Education - University of South Florida

Tampa, FL

- Plan and produce high-impact video assets using Adobe Premiere Pro, After Effects, and professional AV equipment for university marketing campaigns.
- Collaborate with cross-functional teams to gather requirements, manage project timelines, and deliver content for major campus events serving 6,300+ students.

PROJECTS

Panelly - Front-End Developer (Team of 4) | *Next.js, TypeScript, Tailwind CSS, Framer Motion*

July 2026

- Co-developed a personalized clean energy web application to map household appliance consumption against solar utility potential.
- Architected an interactive onboarding survey and user input pipeline using Next.js App Router.
- Built a gamified upload interface using Framer Motion to process appliance photography and utility bill files seamlessly.
- Mapped client-side inputs to backend APIs (Google Solar/Places, EIA) and Neon Postgres database schemas

Custom Email Signature Generator | *HTML, CSS*

May 2026

- Developed and deployed an automated web-based signature generator hosted on GitHub Pages to eliminate inconsistent, manual team branding and enforce unified SHPE identity standards
- Architected a client-side execution model that processes user inputs strictly within the browser, engineering an intentional data-privacy design that prevents information leakage or server-side vulnerabilities
- Executed a strategic beta rollout with 10 Executive Board members to gather user feedback, refining the interface before scaling deployment to over 100+ Project and Department Directors

ACTIVITIES & LEADERSHIP

Vice President of Technology – Society of Hispanic Professional Engineers (SHPE)

May 2026 – Present

- Lead a 29-member technology committee supported by 8 team leads, overseeing weekly technical initiatives.
- Manage technical operations for **HackJam (200+ participants)** and **HackaBull (300+ participants)**, including registration platforms, Discord infrastructure, and participant resources.
- Manage **\$15K** in annual event operations by pitching sponsorship packages, coordinating company workshops, and supporting partner engagement.
- Standardized documentation and built centralized resources in **Notion** to improve team communication and event operations.
- Founded **Build Labs**, an 8-week program connecting **30 students** with industry mentors to develop technology solutions for real-world challenges.
