EDUCATION

University of South Florida | Tampa, FL | GPA 3.96/4.0
Bachelor of Science in Information Technology, Minor in Health Informatics Expected Spring 2028

SKILLS

Languages: Python, SQL, C, TypeScript, HTML, CSS, PowerShell
Frameworks & Technologies: Next.js, React, Tailwind CSS, Supabase, Git, GitHub, PostgreSQL

EXPERIENCE

IT & Data Management Intern **May 2026 – August 2026**
Help Us Grow Foundation *Remote*

- Organized and maintained records for **550+ students**, supporting accurate program tracking and reporting
- Managed an educational content development project on **Monday.com**, coordinating assignments, tracking progress, and organizing resources for **60+ lesson plans** for the upcoming academic year
- Built and configured a **custom GPT** with standardized instructions, formatting, and generation rules to automate image creation and reduce repetitive prompting
- Managed mass communications through **Avochato**, including message scheduling, contact lists, and delivery tracking.

Multimedia Production Assistant **January 2026 – Present**
Housing and Residential Education - University of South Florida *Tampa, FL*

- Produce photo and video content for USF Housing & Residential Education initiatives, including event recaps, interviews, and promotional media
- Operate cameras, microphones, lighting, and audio equipment to capture multimedia content for campus events
- Collaborate with Housing & Residential Education staff to execute assigned projects from content capture through post-production while meeting project goals and deadlines

PROJECTS

Personal Developer Portfolio | ***Next.js, TypeScript, Tailwind CSS, Framer Motion, Vercel***

- Designed and deployed a developer portfolio using Next.js App Router, TypeScript, and Tailwind CSS on Vercel, centralizing technical projects, case studies, and live demos in a single platform
- Built reusable UI components and Framer Motion animations for responsive desktop and mobile experiences
- Developed custom case-study pages documenting project architecture, technical challenges, and implementation decisions, with direct access to live demos, GitHub, and Devpost repositories

MoWay – Full-Stack Developer | ***Next.js, TypeScript, Supabase, PostgreSQL, Google APIs***

- Built a real-time community reporting system using **Supabase, PostgreSQL, and RLS** to surface temporary accessibility and route conditions across campus
- Designed a **confidence-scoring system** that validates community reports through user confirmations and automatically resolves outdated conditions
- Integrated Google Calendar via **OAuth 2.0** to incorporate student schedules into personalized trip planning

Custom Email Signature Generator | ***HTML, CSS***

- Developed and deployed an **HTML, CSS** email signature generator on **GitHub Pages**, automating personalized signature creation to standardize SHPE branding
- Beta-tested with **10 Executive Board members**, incorporated feedback, and scaled to **80+ Directors**

ACTIVITIES & LEADERSHIP

Vice President of Technology – Society of Hispanic Professional Engineers (SHPE) **May 2026 – Present**

- Lead technology initiatives and operations through 8 team leads, coordinating a 29-member technology committee
- Oversee registration systems, Discord infrastructure, and participant resources for HackJam and HackaBull, supporting **500+** participants across 2 annual events
- Manage **$15K** in annual event operations through sponsorship outreach, company workshops, and partner engagement
- Founded Build Labs, an 8-week interdisciplinary technical development program providing **25** students with project resources, team experience, and industry mentorship
